

Abstract of the Disclosure

This invention relates to a lubricating oil composition, comprising: (A) a base oil; and a phosphorus-containing compound represented by the formulae

wherein in Formulae (B-I) and (B-II), R^1 , R^2 and R^3 are independently hydrogen or hydrocarbyl groups, and a , b and c are independently zero or 1; the lubricating oil composition being characterized by a sulfur content of about 0.01 to about 0.25% by weight.
